EXPERTISE

- Web Development
- Prototyping & Wireframing
- User-Centered Design
- UX Research
- Visual Design
- Service Design
- Usability Testing
- Design Systems

SKILLS + TOOLS

Design & Research

- User Experience & Interface Design
- Prototyping, Branding, Typography
- User Journeys & Affinity Mapping
- Usability Testing

Technical

- HTML5, CSS3, JavaScript, React, TypeScript
- Node.js, Express, SQL, PHP, Python
- Figma, Adobe Creative Cloud, Miro
- Generative AI Tools

Soft Skills

- Stakeholder Collaboration
- Cross-Functional Collaboration
- Human-Centered Problem Solving
- Critical Thinking & Analytical Skills
- Time Management & Adaptability

LANGUAGE

German: Native
English: Fluent (C1)
French: Intermediate (B1)

ABOUT ME

I am Katharina, a student of computer science and design at the University of Applied Sciences in Munich. My journey started in graphic design where I created impactful visuals for brands. Now I focus on combining technology and design to develop innovative, user-centered solutions. I am passionate about learning and staying at the forefront of design and technology to develop practical, sustainable and future-proof designs.

EDUCATION

University of Applied Sciences, Munich

B.Sc. in Computer Science & Design (2023–2027)

- Design & UX: Interface design, typography, interaction & service design, intuitive and accessible user experiences
- Software & Web Development: Agile methodologies, responsive web technologies, user-friendly applications
- Data & Research: Usability testing, statistical analysis, user research
